Our range of prices is large, so is our range of styles and fabrics. A great stock of the 1907-1908 cuts and colors of overcoats is in our store awaiting your inspection. Save time by seeing our matchless varieties and values; give Barth, The Clothier, a trial visit. October's business was beyond our expectations, and we are going to make NOVEMBER A RECORD-BREAKER. We are offering inducements to you. Why not? We get inducements from the manufacturers, because we buy with seven other big stores. Our business is cought by the foremost manufacturers in America, the results of which have placed this store in the front rank for more than a quarter of a century. When a Barth price is the same as quotations elsewhere, depend on it, the quality is about 20 per cent higher. When qualities match, you pay Barth, The Clothier, about 20 per cent less. Besides, there are more to choose from here; and one price only.

The refinishing of our store has been completed. We have now one of the most conveniently arranged and modern stores in this section of Missouri. We would be pleased to show you through.

## BY IMPURITIES IN THE BLOOD

If Old Sores were due to outside influences, or if the cause was confined strictly to the diseased flesh around the ulcer, then external treatment and simple cleanliness would care them. But the trouble is in the blood, which has become unhealthy and diseased, and keeps the sore open by continually discharging into it the impurities and poisons with which the circulation is filled. This poisonous condition of the blood may be the remains of some constitutional trouble; the effect of a long spell of sickness, or because the natural refuse of the body, which should pass off through the proper avenues, has been left in the system and absorbed into the blood. Again, the cause may be hereditary; but it does not matter how the poison becomes intrenched in the blood, the fact that the sore will not heal is evidence of a deep underlying cause. Salves, washes, lotions, etc., may cause the place to scab over temporarily, but the blood is not made any purer by such treatment, and soon the old inflammation and discharge will return and the sore be as bad or worse than before. S. S. S. goes down to the very bottom of the trouble, cleanses and purifies the blood, and makes a permanent cure. S. S. S. enriches and freshess the circulation so that invested of
